STAT

MEMORANDUM FOR: [REDACTED]
Office of General Counsel

SUBJECT : Northwest Federal Credit Union

John :

You will recall my conversation with you concerning the very strong possibility that the House Select Committee may question us on matters relating to the Credit Union.

Attached is some material we have pulled together. What I really need is some advice on the extent to which we, as Agency officers, in meeting with the Committee, are free to discuss Credit Union matters and information which we have available to us in our capacity as officers or directors of the Credit Union.

I am, of course, concerned that were we to discuss Credit Union material, we could be violating other statutes which control dissemination of such information; hence, our need for advice on what our relative responsibilities are. Perhaps in the end, once we have the benefit of your advice, we may have to meet with the Administrator of the National Credit Union Administration.
